

### Utility Incentive Research

In Part II, you will research resources in your city that provide rebate incentive information including utility companies, websites, government agencies and other organizations. Then, read the case study (Part III) below and complete the worksheet.

*Tip! Access [www.dsireusa.org](http://www.dsireusa.org) database of Energy Efficiency incentives for your state. HINT: when accessing the database, un-check the Renewable Energy box to narrow your search results.*

List the local incentive resources you identified.

SCL - Commercial energy efficiency rebate program  
Energy Efficiency & Solar Grants

List the steps that need to be taken to apply for incentive sponsored energy efficiency projects before and after they are completed.

1. Request a free energy assessment from SCL
2. An energy manager will contact me to help evaluate project
3. Secure authorization from SCL prior to starting work.
4. Proceed with installation & contact SCL for final verification.
5. Finalize rebate processing and
6. Recieve incentive funds.
